

UBAKA UCHE KINGSLEY

Mobile App Engineer

Lagos, Nigeria | uchekingsley15@gmail.com | +234 708 401 0317 | linkedin.com/in/uche-ubaka | github.com/uchekingsley

SUMMARY

Flutter mobile developer with 2+ years of experience building and shipping cross-platform applications. Published a fintech app to the Play Store, with strong attention to UI/UX detail, pixel-accurate Figma implementation, and secure mobile development practices (secure storage, API key protection, certificate pinning). Comfortable owning features end to end, from architecture through testing to deployment.

WORK EXPERIENCE

Wisemonie • *Flutter Mobile Developer*

- Contributed to building and shipping a fintech app to the Google Play Store, collaborating with the lead developer through architecture, development, and launch
- Implemented AI-powered features, push notifications, offline data storage, and analytics tracking, and resolved critical bugs across the app
- Built multiple screens and contributed to a full app redesign (logo, theme, design system overhaul)
- Applied secure mobile development practices including secure local storage, API key protection, certificate pinning, and OAuth 2.0 authentication appropriate to a fintech context
- Wrote unit, widget, and integration tests to maintain app quality and reliability post-launch
- Set up CI/CD pipelines with GitHub Actions to automate testing and builds

Superstore Driver App • *Flutter Mobile Developer*

- Built core screens and app architecture from scratch
- Architected state management (Riverpod) and UI components for driver-facing features, following Clean Architecture principles
- Implemented API integrations and backend connectivity

Superstore Main App • *Flutter Mobile Developer*

- Designed and built the complete "More Tab": profile, wallet, rewards, BNPL, messaging, address management, watchlist, checkout flow, and order tracking
- Collaborated with the lead developer on core features and overall user experience

Hustle – Balms Studios • *React Native Mobile Developer (Internship)*

- Architected and implemented the authentication system and complete onboarding flow
- Built the news feed section for a social media app as part of a 5-engineer team, working in an Agile environment with daily stand-ups
- Gained hands-on production experience with React Native alongside core Flutter work

HNG Internship • *Flutter Mobile Developer Intern*

- Independently developed three production-ready apps: Personal Portfolio App, Tech Quiz App, and Smart Utility App
- Demonstrated strong problem-solving and UI/UX design across multiple independent projects

PERSONAL PROJECTS

Frontlet Ops • *Personal Project – In Development*

- Building a multi-purpose church operations app: scrapes and categorizes testimony data for offline viewing and export
- Includes Bible features, member exam/grading tools, and an in-progress store-keeper module for merchandise operations
- Applying AI features and offline-first data storage patterns
- Implemented OAuth 2.0 Google Sign-In for authentication

SKILLS

Methodology: Agile (daily stand-ups, sprint-based delivery)

Languages: Dart, JavaScript, TypeScript

Frameworks: Flutter, React Native, Expo, Expo Router

Architecture & State Management: Clean Architecture, Riverpod, Provider, Zustand

UI/UX & Design: Figma-to-code implementation, responsive layouts, design systems, animations & micro-interactions

Testing: Unit, widget, and integration testing (Flutter test, mocktail)

Security: Flutter Secure Storage, certificate pinning, secure API key handling, OAuth 2.0, JWT

Tools & Backend: Firebase, Firebase Analytics, Supabase, SQLite, offline data storage, REST APIs, Git, CI/CD (GitHub Actions)

EDUCATION

Bachelor of Arts, History — 2026

University of Ibadan

CERTIFICATIONS & AWARDS

- Mobile App Development Intern Certificate – HNG, 2026
- Flutter App Development – Udemy, 2025
- AI Fundamentals – BAFAI Institute, 2025
